

≡ MANSORY ≡

RENOVATIO Overview 2016

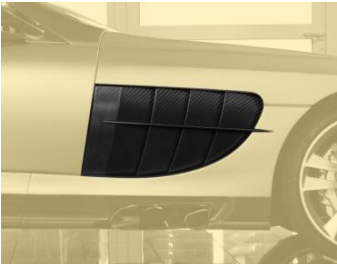

The ultra-light and high-strength CFK-Prepreg material normally is only used in aviation and aerospace, MANSORY using the autoclave-prepreg-method, the carbon is compressed so strongly in a special pressure chamber that no more air inclusions remain in the material, resulting highest and exclusiveness quality of automobile parts manufacture.

RENOVATIO Style	description	Art.No.
	Front spoiler, Material: CFK exclusive aerodynamic designed front spoiler with integrated Xenon lights and air grid intakes. Included kit for OEM Engine bonnet available in special paintings on customers requests, on inquiry	199 100 100
